**Consideration of the External Review Report
Bonn International School**

Dear Pat,

The NEASC Commission on International Education (CIE) considered the External Review Report submitted by the NEASC/CIE team led by Mary Tadros to the Bonn International School on September 21, 2019 to September 27, 2019. We are pleased to inform you that the Commission has continued the accreditation of the Bonn International School. We congratulate your entire learning community on this achievement, which is the result of significant effort by many individuals.

The enclosed report offers input covering the 10 Learning Principles as well as commentary on your Major Learning Plans. We invite you to consider in particular the commentary on your Major Learning Plans on pp. 36-37 as continue to implement these thorough and ambitious plans.

The Visitors found Bonn International School to be a remarkable place for learning where there is a pervasive culture of innovation, collaboration, and community amongst all stakeholders. The school's intense focus on deep organizational learning, evident throughout the school, has created an environment where student wellbeing and learning are thriving. We commend the focus and commitment by all school stakeholders that helped to ensure a successful, multi-agency synchronized visit.

Going forward, you will be asked to indicate progress on your Major Learning Plans in the Fall of each year in an Annual Update submitted to CIE. The Annual Update requests information from each CIE school regarding enrollment, staffing, alignment with Foundation Standards as well as progress on the Major Learning Plans so that we stay current with your status.

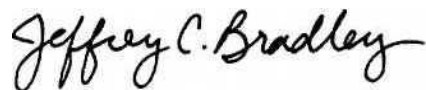

Please note that the next Learning Principles/Preparatory Visit to your school will likely occur about four years from now, in Fall 2023. We will be back in

touch several months prior to the visit season to fix a specific visit date, and to share information regarding the next Learning Principles Report.

We would like to present the school with a certificate that celebrates and acknowledges Bonn International School's continued accreditation. The certificate will be mailed to the school directly. Please confirm your address so that we may make the necessary arrangements.

We extend our warmest congratulations to you and to your school. We look forward to following your progress in the years ahead and to supporting the important work you do every day at Bonn International School.

Sincerely,

Jeffrey C. Bradley
Director
