Dear Head of school

Thank you for completing the self-study process for programme evaluation.

The aim of programme evaluation is for the IB to ensure on a regular basis that the standards and practices of the programme are being maintained. The IB is aware that for each school the implementation of an IB programme is a journey, and that the school will meet these standards and practices to varying degrees along the way. However, it is expected that the school makes a commitment towards meeting all the standards, practices and programme requirements.

The present report is based on the analysis of the self-study questionnaire and supporting documents, together with the findings of the school visit. This report reflects on the self-study submitted by the school, including the process and the conclusions that the school reached.

The report is structured according to the document titled *Programme standards and practices*.

The report includes the following.

- **Feedback on the self-study process:** Analysis of the self-study process carried out by the school.
- **Commendations, recommendations, matters to be addressed (MTBA):** A list of those practices and programme requirements that resulted in commendations, recommendations or matters to be addressed, together with:
  - the commendation, recommendation or matter to be addressed
  - related finding(s)
  - indication of recommendations that are repeated from the previous report (whether from authorization or evaluation)

- indication of whether the school has already included appropriate actions for the identified recommendations or matters to be addressed in their action plan
- indication of the evidence to be provided by the school in case of matters to be addressed.

- **Conclusions:** A table of conclusions for each standard. If there are matters to be addressed by the school within the standard, it will require significant attention.
